EDUCATION

Indraprastha Institute of Information Technology (IIIT) Delhi

Jul 2021 – Jun 2025

Bachelor of Technology in Computer Science and Engineering

Delhi, India

WORK EXPERIENCE

Member of Technical Staff

Jul 2025 – Present

ZL Technologies, Inc / [Website](#)

Hyderabad, India

- Worked on task synchronization and bulk parallel processing across clusters within ZL's analytics module, resulting in over a 100% performance improvement.
- Implemented task completion time estimation and duplicate item detection when processing millions of items during data loading.

Research Assistant | [Github Project Organization](#)

May 2024 – May 2025

Networks and Systems Security Lab - IIITD / [Website](#)

Delhi, India

- **Objective:** Address quality degradation in video streaming applications when fallback from QUIC to TCP occurs due to UDP blocking.
- **Solution:** Implemented a mechanism to send notifications in QUIC packets to anticipate UDP blocking. Server logs the kernel congestion window state to be used in the upcoming TCP connection. Improved user experience by avoiding TCP slow start, thus preventing buffering during fallback.

PROJECTS

Axiom Text Editor | [Repository](#)

Dec 2025 – Present

- **Key Skills:** *C#, .NET, Language Server Protocol (LSP), Desktop Applications, Editor Architecture*
- Developed a native Windows text editor with multi-language support and Language Server Protocol integration for intelligent code editing features. Implemented modular editor components including syntax highlighting, file management, and extensible language tooling, focusing on maintainable architecture and responsive UI design.

Quorum Distributed Coordination System | [Repository](#)

Oct 2025 – Dec 2025

- **Key Skills:** *Distributed Systems, Consensus Algorithms, Networking, Fault Tolerance, Systems Programming*
- Implemented a distributed coordination service inspired by quorum-based consensus mechanisms for maintaining consistency across nodes. Designed message protocols and state synchronization logic to handle leader coordination, replication, and fault tolerance in distributed environments.

Java Developer Tools | [Repository](#)

Aug 2025 – Oct 2025

- **Key Skills:** *Java, Developer Tooling, CLI Utilities, Build Systems, Software Engineering Automation*
- Built a collection of developer productivity tools in Java to automate common development tasks and streamline workflows. Designed modular command-line utilities for code analysis, project management, and development automation with emphasis on extensibility and clean software engineering practices.

TECHNICAL SKILLS

Languages: C, C++, Rust, Assembly, Java, Kotlin, JavaScript, Python, Bash, Haskell

Frameworks: PyTorch, Django, ReactJS, Numpy, Pandas, Tauri, LibGDX, Raylib

Developer Tools: Emacs, Linux, Git, GDB, Markdown, Google Cloud Platform, OpenLiteSpeed, SQLite3

Technical Electives: Data Structures & Algorithms, Operating Systems, Cryptography, Database Management, Computer Security, Computer Networks, Compilers, Machine Learning, Natural Language Processing

AWARDS

Awarded **Summer Undergraduate Research Fellowship** in 2023 by IRD-IIITD for the project “*Utilizing ultrasonic distance sensors as a mapping tool to design user-friendly CST*”.

Awarded **CHANAKYA Fellowship** by iHub Anubhuti Foundation in 2024 for the project “*A Unified Approach to User Emotion Detection through Emojis and Textual Analysis*”.
