EDUCATION

Indraprastha Institute of Information Technology (IIIT) Delhi

Jul 2021 – Jun 2025

Bachelor of Technology in Computer Science and Engineering

Delhi, India

WORK EXPERIENCE

Member of Technical Staff

Jul 2025 – Present

ZL Technologies, Inc | [Website](#)

Hyderabad, India

- Developed task synchronization and bulk parallel processing mechanisms across clusters within ZL's analytics module, achieving over 100% performance improvement.
- Implemented task completion time estimation and duplicate item detection for large-scale data loading workflows processing millions of items.

Research Assistant | [Gitlab Project Organization](#)

May 2024 – May 2025

Networks and Systems Security Lab - IIITD | [Website](#)

Delhi, India

- Researched mechanisms to mitigate video streaming quality degradation during fallback from QUIC to TCP caused by UDP blocking.
- Implemented QUIC-based notification signaling and kernel congestion window state reuse to bypass TCP slow start, reducing buffering and improving user experience during fallback transitions.

PROJECTS

Minimal Compiler Infrastructure | [Repository](#)

May 2024 – Present

- **Key Skills:** *Compiler Infrastructure, Design and Optimization, Rust, FASM, WASM, Graphviz*
- Developed a minimal compiler infrastructure inspired by LLVM. It converts source code into an optimized control flow graph (CFG) and translates it into target-specific assembly code.
- Implemented CFG optimization passes, such as identifier validation, constant folding, and CFG simplification, ensuring high-performance code generation.

C Federated Machine Learning Library | [Repository](#)

Nov 2024 – Feb 2025

- **Key Skills:** *C Programming, Federated Learning, Machine Learning, Networking, Distributed Systems*
- Built a federated learning framework in C enabling distributed clients to collaboratively train models without sharing raw data.
- Implemented socket-based client-server communication and global model aggregation across multiple training participants.

Real Estate Aggregator Platform | [Repository](#)

Apr 2024 – May 2025

- **Key Skills:** *System Design, Rest API, Authentication, Cryptography, Security, Django, Python*
- Developed a comprehensive real estate aggregator platform designed to secure transactions and protect user data by implementing advanced security protocols like end-to-end encryption and Kerberos authentication.
- Integrated multiple security features, including SSL, HTTPS, PKI, OTP, SQLite, Nginx, and e-signatures, which collectively reduced fraud incidents by 85%.

TECHNICAL SKILLS

Languages: C, C++, Rust, Assembly, Java, Kotlin, JavaScript, Python, Bash, Haskell

Frameworks: PyTorch, Django, ReactJS, Numpy, Pandas, Tauri, LibGDX, Raylib

Developer Tools: Emacs, Linux, Git, GDB, Markdown, Google Cloud Platform, OpenLiteSpeed, SQLite3

Technical Electives: Data Structures & Algorithms, Operating Systems, Cryptography, Database Management, Computer Security, Computer Networks, Compilers, Machine Learning, Natural Language Processing

AWARDS

- Awarded the **Summer Undergraduate Research Fellowship** (2023) by **IRD-IIITD** for the project “Utilizing Ultrasonic Distance Sensors as a Mapping Tool to Design User-Friendly CST”.
- Awarded the **CHANAKYA Fellowship** (2024) by **iHub Anubhuti Foundation** for the project “A Unified Approach to User Emotion Detection through Emojis and Textual Analysis”.
